

It would be a crime to stop XM from providing local traffic and weather. The reason people use this service is that they are tired of 15 minutes of commercials to listen to 2 minutes of news on AM and FM. Local radio needs to evolve or die. I would not be sad if it died.

Do not stifle america's growth in this industry by regulating XM's content. I pay for it, I should be able to listen to whatever I like.

Please reject petition 04-160 anf keep America FREE.
